SCIENTIFIC ENTREPRENEURSHIP WORKSHOP

THE LOFT AT NATTY GREENE’S
FEBRUARY 14TH @ 9 AM

Scientists excited about developing science & technology ideas into useful products & interested in forming or being part of a startup business

Business people with an interest in science

People who need help expanding ideas for a new startup

People who love the idea of being their own bosses

WHO

Led by Dr. Cedric Pearce, a classically trained biochemist and adjunct professor and Coleman Entrepreneurship Fellow at UNCG. Since the mid 1990s, Pearce has been part of founding, growing, and successfully exiting science-based businesses, including Mycosynthetix, Inc (http://www.mycosynthetix.com). Hosted by Dr. Nicholas Oberlies, an entrepreneurial professor in UNCG’s Department of Chemistry and Biochemistry (http://www.uncg.edu/che/Oberlies).

Workshop limited to 25 participants. $20 entry includes lunch. Come with ideas, questions, an entrepreneurial spirit, and time for sampling Natty Greene’s fermented beverages as well.

Email Dr. Nicholas Oberlies to reserve your space.
nicholas_oberlies@uncg.edu

The workshop is co-sponsored by the UNCG Entrepreneurship Cross-Disciplinary Program, the Coleman Foundation, and the Natural Products and Drug Discovery Center at UNCG.
