

STEPS
Science and Technologies for Phosphorus Sustainability

**UNC
GREENSBORO**

ExPlorers Summer Program 2026

JULY 20-JULY 24 FROM 9:00 AM -4:00 PM

The focus of the Summer ExPlorers program is to engage high school students in a one-week-long activity series that connects real-world experiences to the classroom and beyond with an emphasis on Phosphorus sustainability.

THE EXPERIENCE:

Students will:

- Participate in interactive experiences
- Develop 3D printing skills
- Learn about convergence science
- And much more...

LOOKING FOR:

- High school students in grades 10-12
- Individuals with a passion for STEM
- Students enthusiastic about a summer research opportunity.
